

How did the physical geography of China make it isolated from the rest of the world in 1900?

Use the outline map of China to produce a detailed map showing how China was isolated from the rest of the world.

Your map should include the following:

- * A title
- * Major cities - Beijing, Shanghai, Nanjing, Chongqin, Xian, Harbin and Hong Kong.
- * Major rivers - Yellow river (Huang Ho) and the Yangtze river.
- * All the 14 countries that border China.
- * The physical factors that led to China being isolated:
 - The Gobi desert
 - The Plateau of Tibet & Himalayan mountains.
 - The Tian Shan mountains
 - The jungles of northern Burma, Laos and Vietnam.
 - The sea

Use colour to improve the visual impact of your map.
