Dear Teachers

My name is Angela Yan and I am a student in G11. As you know the EE (Extended Essay) is an essential component of my IB studies. I am doing an EE in Chemistry and my research question is “How does the geographical origin of white wine affect its sugar content and acidity”. To collect meaningful data I need samples of different white wines from around the world. Can you help me?

If you are willing to donate a glass of wine for me to analyze I would be very grateful. Please bottle it in a plastic bottle and label it with your name. Also, please take a photo of the wine label so that I can track down its origin and email it to me (angelayan@students.najing-school.com). If you could give the sample to Mr. Hornell (my Chemistry teacher), he will keep them safe in the lab for me to do the testing later.

Many thanks for your help in advance!

Angela Yan
